Minh Tran

Backend Software Engineer

minh.tran.dev@email.com | +84 90 123 4567 | Ho Chi Minh City, Vietnam | linkedin.com/in/minhtran-dev

SUMMARY

Backend engineer with 4 years of experience building and scaling Java/Spring Boot microservices for e-commerce and fintech platforms. Strong background in relational database design, REST API development, and message-driven architectures. Comfortable owning a service from design through production monitoring.

SKILLS

- Languages: Java (primary), SQL, some Python for tooling scripts
- Frameworks: Spring Boot, Spring Data JPA, Spring Security, Hibernate
- Data: PostgreSQL, MySQL, Redis (caching, rate limiting)
- Messaging & infra: Apache Kafka, RabbitMQ, Docker, basic Kubernetes
- Testing & tooling: JUnit 5, Mockito, Testcontainers, Maven, Git, Jenkins

EXPERIENCE

Backend Engineer — Vertex Commerce Jan 2023 – Present

Ho Chi Minh City, Vietnam

- Own the order-management microservice (Spring Boot, PostgreSQL) handling ~120k orders/day; reduced p95 API latency by 38% through query indexing and Redis caching.
- Designed and rolled out a Kafka-based event pipeline to decouple inventory updates from checkout, cutting checkout failures during flash sales by roughly 60%.
- Wrote integration tests with Testcontainers and raised service test coverage from 46% to 82%; mentored two junior engineers on API design conventions.

Junior Backend Developer — Sapphire Fintech Jul 2021 – Dec 2022

Ho Chi Minh City, Vietnam

- Built REST APIs for a KYC onboarding flow using Spring Boot and Spring Security (JWT-based auth).
- Migrated a legacy monolith's payment module to a standalone service, coordinating a zero-downtime cutover.

EDUCATION

B.Eng. in Software Engineering — Industrial University of Ho Chi Minh City 2017 – 2021

GPA 3.4/4.0

CERTIFICATIONS

- Oracle Certified Professional: Java SE 11 Developer
- AWS Certified Developer – Associate
